

CINEA/EMFAF/2021/3.1.2/03/SC04/SI2.881222

Specific Contract 2021/3.1.2/03/SC04

Hosting, maintenance and further development of the Regional Database for the
Mediterranean and Black Seas (RDBFIS II)
(RDBFIS-II, 01/04/2023 – 31/03/2025)

RCG ECON
12-15 May 2025, Vigo, Spain

Stefanos Kavadas, Irida Maina

AER database structure

[Tables¹](#)

AER map capacity (base fleet segment data)
AER data at fleet segment level (map_fs)
AER map fleet segment FAO (map_fsfa0)
AER map fleet segment (map_fssub)
AER data at national level (map ms)
AER data at national level (map msfa0)
AER data at national level (map recatch)
AER data social (map social)

Integration within RDBFIS

Validation scheme

[CSV Validator²](#)

Consistency check (*R scripts*)

... pending²

¹ *Awaiting complete datasets from JRC*

Achieved Sample Rate ⌵ Coefficient Of Variation Response Rate ⌵

² *Collaboration with JRC to harmonize the validation scheme and consistency checks*

- *Revenue*
- *Total Income or Total Revenue*
- *Opportunity cost of capital*
- *Gross Value Added (GVA)*
- *Net Value Added (NVA)*
- *Gross Profit (GRP)*
- *Net Profit/Loss*
- *Rate of Return on Fixed Tangible Assets (RoFTA)*
- *Rate of Return on Investment (RoI)*
- *Break-even revenue (BER)*
- *Revenue to Break-even Revenue Ratio (CR/BER)*
- *Energy use – fuel efficiency and intensity*
- *Margin ratios indicators*
- *Other indicators*

GVA / FTE = Gross Value Added / FTE national

Average wage = (Personnel costs + Value of unpaid labour) / (Engaged crew + Unpaid labour)

Average wage per FTE = (Personnel costs + Value of unpaid labour) / FTE national

Average fuel price = Energy costs / Energy consumption

Average fish price = Value of landings / Live weight of landings

Landed weight per sea day = Live weight of landings / Days at sea

Landed value per sea day = Value of landings / Days at sea.

1. Aggregated data

- Med&BS
- FDI (Tables A, B, G, H, I, J)
- AER
- GFCM/DCRF

2. Survey data

- **MEDITS** (TA, TB, TC)
- **MEDIAS** (acoustics, pelagic trawl, CTDs)

3. Detailed biological & landings data

A straight-forward process to upload data

Step 1. Syntax check (validation scheme)

Step 2. Consistency check (quality control routines)

Step 3. Upload (update RDBFIS)

Med&BS RDB

- Med&BS, FDI, AER
GFCM/DCRF data calls
- Detailed bio data
- MEDITS, MEDIAS,
Eggs&Larvae
- EU Fleet
- Stomach content
- PETS
- Alien species
- Recreational
- Coding
- Environmental
- Spatial data

Components

- ✓ UI
- ✓ Validation schemes
- ✓ Data calls
- ✓ RDBqc
- ✓ RDBprocessing
- ✓ RoME, RoMEBS
- ✓ BioIndex
- ✓ EU fleet analysis
- ✓ MCDA for SSF
- ✓ FDI spatial checks
- ✓ Mapping
- ✓ Stomach content data
entry form
- ✓ PETS, Alien species data
entry form

Fleet analysis: a dynamic tool has developed to illustrate the evolution of the fleet dynamics in Europe; potential links with the landings, discards and value (FDI Table A);

*Data from the professional fishing fleet, spanning the period from 1991 to 2023, was downloaded from the **official EU Fleet Register portal**. GIS techniques were employed to spatially join the fishing ports with various geographical entities, including NUTS2 and NUTS3, FDI subregions, Geographical areas (GFCM, ICES). The fishing ports were match to **LOCODE** from the **CIRCABC Master Data Register**.*

The screenshot displays the 'Med&BS RDBFIS' web application interface. On the left is a dark sidebar with a menu including 'Data Calls', 'Surveys', 'Biomass Contents', 'PETS', 'Alien/Invasive Species', 'Recreational Fisheries', 'Litter', 'EU Fleet Data' (highlighted in red), 'Fleet Vessels', 'Spatial Analysis', 'Environmental', 'Classification System', and 'User Settings'. The main content area is titled 'VESSELS' and has tabs for 'Tabular Visualization' and 'Fleet Analysis'. The 'Fleet Analysis' tab is active, showing a 'Fleet Analysis - Query Parameters' form. This form includes a 'Query on' dropdown set to 'Active Fleet', a 'Vessel Length Segmentation' section with radio buttons for 'Med&BS' (selected), 'GFCM', 'Baltic Sea', and 'Other waters', and a 'Type of Query' section with radio buttons for 'By Year' and 'Between' (selected). The 'Between' section has 'Start' and 'End' dropdowns set to '1991' and '2023' respectively. Below these are three filter sections: 'Filter on vessel characteristics' (Yes/No), 'Filter Results Geographically' (Yes/No), and 'Group Results' (Yes/No), each with a radio button. An 'Execute Fleet Analysis' button is at the bottom of the form. At the bottom of the page, a small footer reads 'RDBFIS: Financed by EMFF (2021-2022) and CINEA/EMFAF (2023-2025)'.

*The accuracy of the fishing port locations was validated using information available from the **IFREMER Sextant portal**. Reports can be generated based on user-defined queries about active or decommissioned fishing vessels*

Establishment of the Regional Database for the Mediterranean and Black Seas

Acronym: Med&BS RDBFIS-III

Under FRAMEWORK CONTRACT – EASME/EMFF/2020/OP/0021

Framework Contract for the provision of scientific advice
for the Mediterranean and the Black Seas

Specific Contract CINEA/EMFAF/2024/3.1/01/SC08

Contractor: Hellenic Centre for Marine Research (HCMR)

Specific Contract Project Coordinator: **Dr. Irida Maina (HCMR)**

Scientific Information Technology Coordinator: Stefanos Kavadas

Duration: 13 months and 21 days

Project Start: April 1st 2025

Project structure

Aim

- Continue the hosting, maintenance, fine-tuning and further development of RDBFIS;
- Finalize the population of RDBFIS with data (from existing data calls) and agree with the relevant actors on an all-encompassing data call for the future;
- Work towards using RDBFIS for submission to the main data calls and reporting obligations;
- Provide support to the users of RDBFIS and to ensure the migration to the permanent host once a decision is taken.

Sub-Task 0.1 – Project management

Sub-Task 0.2 – Meetings with CINEA/DG MARE

Sub-Task 0.3 – Reporting activities

Task 0 – Project Management and Coordination

Task 1 Provision of a temporary solution for hosting and maintenance of RDBFIS

Task 2 Population of RDBFIS with MS data and future data call

Task 3 Submission of data to end users through RDBFIS

Task 4 Fine-tuning and further development

Task 5 Provision of support to the users

Task 6 Advise on way forward, in terms of improving the RDB for the region

Task 7 Participation in meetings, where the work of this contract needs to be disseminated

Task 8: Prepare a hand over file to facilitate the transition of RDBFIS to DG MARE, RCG Med&BS and the final host

TASK 4: Fine-tuning and further development of RDBFIS

1-Regional database maintenance and restructuring

S. Kavadas, I. Maina (HCMR)
M: 1-13

2- Update/revision of existing data quality tools

I. Bitetto, W. Zupa (COISPA)
M: 2 - 5

3-Development of data quality tools: MEDIAS

S. Kavadas, A. Kapelonis (HCMR), T. Hattab
M: 2- 8

4-Further development & adjustments of tools4MCDA

I. Maina (HCMR), S. Kavadas
M: 8-1

5-Improvement & further development of the spatial visualization (mapping) component

I. Dokos , I. Maina (HCMR)
M:1 to 9)

6- Improvement and further development of the existing validation scheme and consistency checks

S. Kavadas, I. Maina (HCMR), I. Chamodrakas(UOA)
1 to 12)

7-Fleet analysis (yearly updates), improvement of spatial checks for FDI

S. Kavadas, I. Chamodrakas (UOA)
M: 5 to 6

8-Integration of sampling optimization in RDBFIS

I. Bitetto W. Zupa (COISPA)
M: 1 to 12

9-Common raising procedures for the Med&BS biological data

M. Pantazi (HCMR), K. Touloumis (FRI)
M: 1 to 4

10-stat4RDBFIS software Package development

V. Sgardeli (HCMR), A. Mannini (CNR)
M: 4 to 12

11-Development of the MAPAFISH-MED tool

V. Sgardeli, D. Damalas (HCMR)
M: 2, 3, 12, 13

12-Fine-tuning

I. Chamodrakas (UoA), S. Kavadas, K. Kalkavouras (HCMR)
M: 1 to 13

CINEA/EMFAF/2021/3.1.2/03/SC04/SI2.881222

Specific Contract 2021/3.1.2/03/SC04

Hosting, maintenance and further development of the Regional
Database for the Mediterranean and Black Seas
(RDBFIS-II, 01/04/2023 – 31/03/2025)

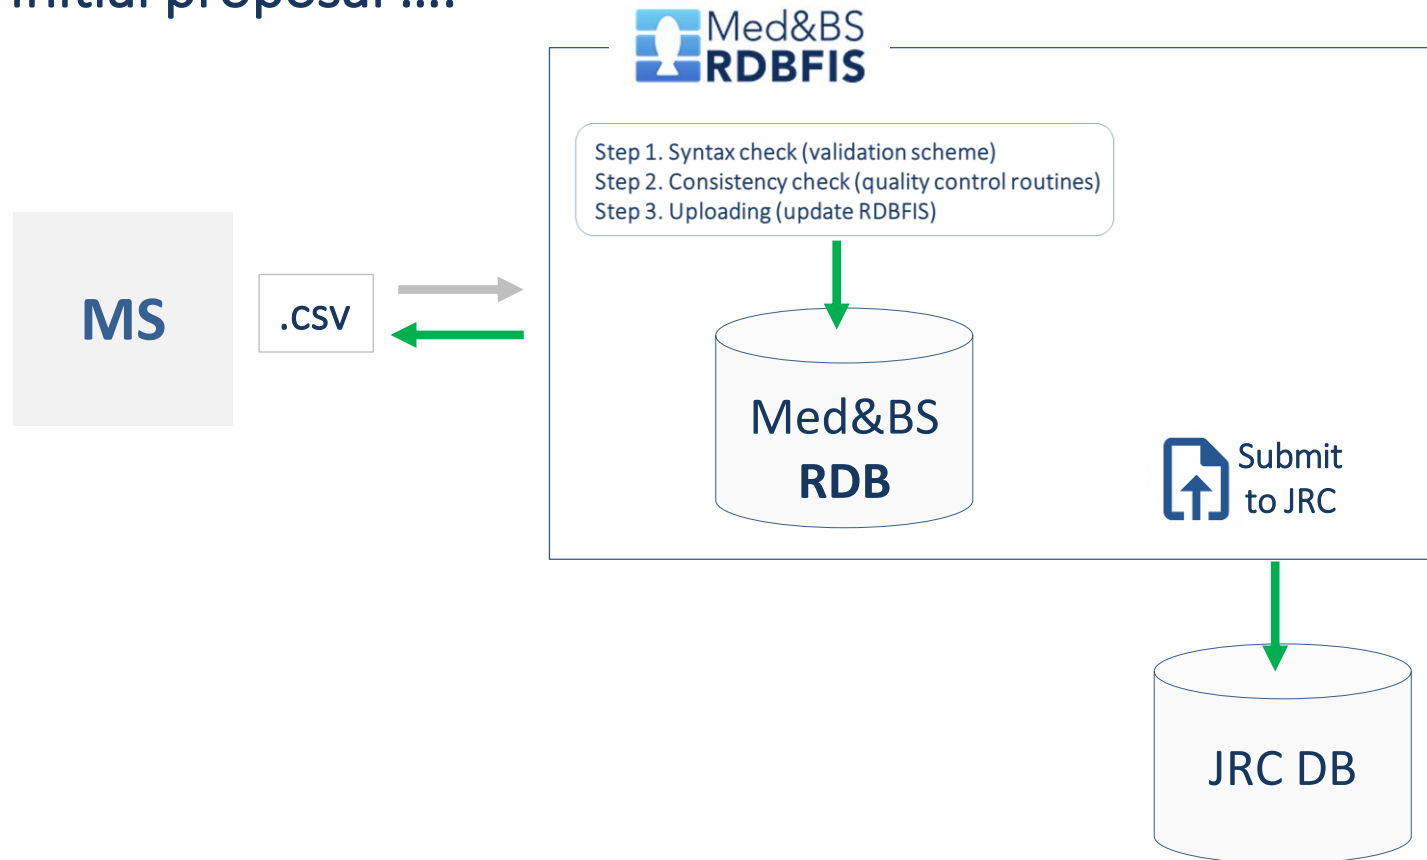

EASME/EMFF/2020/OP/0021

Specific Contract CINEA/EMFAF/2024/3.1/01/SC08

Establishment of the Regional Database for the Mediterranean and
Black Seas
(RDBFIS-III, 01/04/2025 – 21/05/2026)

Initial proposal

... **but:** a) there are commission policy issues regarding data,
b) is a much bigger task to alter the stringent institutional security bureaucracy
